Shortly after arriving the Federation was not ready for the development I was ready for, so the universe steered me towards an amazing opportunity in the Student Affairs Department at the American University of Phnom Penh as the Internship Coordinator and Career Advisor.

A year in, I was given the title acting Director of Student Affairs where I get to support the students and the community best I can. So far I have survived and flourished in Cambodia and my plan is to continue here for at least another 2 years and then return back to the states to study law.
